Azita ★★★★★ Reviews

🎓 **Qualified Tutor | Msc Computer Networking**

I am Azita and I am currently a Senior Computer Science Lecturer at University of Hertfordshire, UK. I am a Network Engineer and Cisco Trainer with years of experience of setting up and running the new programmes based on the latest technologies in the Networking field. I am always keen in learning and having an effective customer service skill, with a positive attitude. A team player!

Teaches: Computer Science

Curriculum: A-Level · GCSE · IGCSE · Admissions

Qualifications

A-Level: Qualified Online Tutor (Computer Science)

GCSE/IGCSE: Qualified Online Tutor (Computer Science)

Degree Qualifications: BSc Electronics Engineering (1990-1994)/Msc Computer Networking (2002-2004)/PhD IT Central Networks (2020-)/Instructor, Computer Systems Networking and Telecommunications (2003-2006) - Renewed at (2001-2008)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

The major subject I teach is Computer Networking. I conducted a research on IT Wireless Sensor Network for my PhD.

I am an Electronic Engineer with an Msc in Telematics and a PhD.

When the CISCO academy initiated in the UK, I worked with Richmonde University within a regional CISCCO academy and trained instructors and students after having gone training myself.

I then moved to commercial CISCO training industry and experienced a fast-paced training for CISCO certification.

Currently, I am a Senior Computer Science Lecturer at the University of Hertfordshire, UK.

Tutoring Approach

My teaching style included assessing students' current level of understanding, identifying their strengths and weaknesses, and creating a customized plan to help them achieve their academic goals.

I use interactive lessons, possible visual aids, and real-life examples, to help students understand difficult concepts as part of my teaching techniques. I create a positive and supportive learning environment, encourage participation, and provide feedback to keep students motivated.

I have the ability to communicate effectively with students of different ages and backgrounds, and I always will adjust my teaching style to meet students' needs. I am strongly committed to helping my students achieve academic success, and I am willing to go above and beyond to support them in their studies.
