 Jagiellonian University: MSc in Chemical Engineering, BSc in Maths

Greetings, I am Mateusz from Krakow. With deep knowledge in IB Maths and Chemistry, I pride myself on breaking down the most intricate topics. Having studied at Jagiellonian University, I've dedicated the past eight years to tutoring, helping students overcome challenges and thrive academically.

Teaches: Maths Chemistry

Curriculum: IB

Qualifications

Jagiellonian University: MSc in Chemical Engineering (2010–2014), BSc in Maths (2014–2016)

International Baccalaureate: Certified Teacher (Maths and Chemistry HL/SL)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For eight years, I've tutored IB students from various backgrounds, taking pride in their outstanding results. My students frequently report a deeper understanding of topics after our sessions. I've collaborated with several IB schools in Poland, designing curriculum and training other tutors. My adaptability allows me to help students whether they struggle with foundational concepts or aim for top grades.

Tutoring Approach

I believe in a dynamic and individualized teaching approach. Recognizing that each student is unique, I adapt my methods to their specific learning style. We tackle tough concepts together, breaking them down step-by-step. Interactive problem-solving sessions, combined with real-world applications, make learning engaging. I place heavy emphasis on fostering independent thinking, so students not only learn but also understand deeply. Regular feedback sessions ensure students are always on the right track.
