🎓 University of Amsterdam: MSc in Maths

I completed my studies abroad, and my global exposure enriched my Mathematical prowess. Based in Zurich, I integrate a worldly perspective into my IGCSE and IB Maths tutoring sessions, making the learning experience engaging and broad.

Teaches: Maths

Curriculum: IB GCSE IGCSE

Qualifications

University of Amsterdam: MSc in Maths

IGCSE: Maths (A*), Physics (A*), Chemistry (A), IB: Higher Level Maths (7), Higher Level Physics (7)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 8 years, I've tutored IB and IGCSE students in Zurich and worldwide. My international education has allowed me to understand and adapt to different curriculum nuances. With a track record of students excelling, my global perspective has often been cited as a distinguishing factor in my teaching approach. I also assisted students preparing for university applications, especially those targeting international colleges.

Tutoring Approach

My teaching philosophy revolves around broadening horizons. I start by understanding a student's foundation and then weave in global Mathematical practices. This helps in inculcating a broader perspective and analytical thinking. I am a firm believer in 'learning by doing', thus I emphasize practical problem-solving. Between our sessions, I encourage students to engage with diverse Maths problems, and in our subsequent meetings, we dive deep into discussions, critiques, and solutions. This interactive dialogue often leads to better retention and understanding.
