## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past ten years or a decade, my professional journey has revolved around educating students in IBDP and Cambridge A-Levels. When the challenges of the Covid-19 pandemic emerged, I swiftly adapted to the situation, transitioning my teaching methods to online classes for an extensive period of approximately two years.

Within this educational landscape, a significant portion of my expertise and commitment has been devoted to IBDP Economics. With five years of focused teaching in this subject, I take pride in consistently guiding my students to achieve grades that exceed IB World averages. This dedicated experience has not only enriched my teaching approach but has also strengthened my commitment to delivering quality education in dynamic and evolving learning environments.

## Tutoring Approach

Passionate and results-driven, I bring extensive experience as an IB Economics teacher and DP Coordinator. My teaching journey spans many years in IBDP, preceded by five years of instructing Cambridge A-Levels. During this period, my students consistently earned the prestigious Top in the Country Cambridge Outstanding Learner Award.

In IB Economics, my expertise encompasses microeconomics, macroeconomics, and the global economy. With years of teaching and specialized IB training, I offer comprehensive support, guiding students through economic concepts and theories. I apply this knowledge to enhance Internal Assessments, ensuring students excel by applying principles to real-world scenarios, fostering a well-rounded understanding. The results speak for themselves, with my students consistently achieving above-global-average scores.

As an educator and DP Coordinator, my commitment goes beyond traditional teaching. Attending multiple IB workshops, I am well-versed in the intricacies of the IB framework. Being a UK qualified teacher and on the verge of completing my Master's Degree in Education Leadership from Keele University, I combine academic qualifications with practical experience. Holding a BA in Business Economics further enriches my understanding, allowing me to provide holistic support for students to thrive in the challenging IB environment.
