

**Qualified Teacher | IB Examiner | Masters Process Engineering**

Hello! I'm Stela. As a seasoned IB Chemistry examiner, Team Leader, and an experienced tutor for AP and GCSE/IGCSE Chemistry, my passion for teaching extends in multiple directions. This fervor not only enhances student learning but also deepens my own understanding through lively student interactions. I am a staunch advocate of the critical role tutors play in shaping student success, stressing the importance of tailoring teaching strategies to each individual's unique needs. In my role as an online chemistry tutor, I am committed to providing education that is personalized, and sharply focused on addressing the specific requirements of each learner.

Teaches: Chemistry

Curriculum: IB AP GCSE IGCSE

Qualifications

International Baccalaureate: Qualified Online Teacher and IBDP Examiner (Chemistry Higher/Standard Level)

Advanced Placement: Qualified Online Teacher (Chemistry)

GCSE/IGCSE: Qualified Online Teacher (Chemistry)

Degree Qualifications: Bachelor's Degree in Petrochemical Engineering (1997), Master's Degree in Process Engineering (2011)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With 20 years of experience, I take pride in guiding numerous students towards advanced studies in natural sciences, both in the United States and Europe. My students have achieved notable success in biochemical and medical research, many earning Ph.D.s in fields like Analytical Chemistry, Molecular Biology, Genetics, Neuroscience, and Immunology.

As an online chemistry tutor, my strengths include customizing learning experiences, adapting to each student's needs, encouraging active participation, providing prompt feedback, and fostering a supportive and motivational atmosphere. My goal is to equip students with a solid chemistry foundation, helping them excel academically.

Tutoring Approach

I customize my teaching approach to fit each student's unique needs and objectives, simplifying complex ideas and using visual aids for clearer understanding. My tutoring style includes clear communication, interactive sessions, and engaging materials to promote active learning and comprehension.

I offer ongoing assessments, feedback, and a variety of chemistry resources to aid student progress. Flexible scheduling ensures timely support for my students. A key aspect of my method is building motivation and confidence, celebrating achievements, setting attainable goals, and offering encouragement through challenges.
