### 🎓 Cambridge University - BA Computer Science

I am pursuing a degree in Computer Science at Cambridge University, where I have had the opportunity to tutor more than 60 students in both mathematics and computer science, focusing on preparation for university admissions. My expertise lies in guiding students through the intricacies of STEP and TMUA exams, as well as providing comprehensive support in Mathematics, Further Mathematics, and Computer Science at A-Level, IB, and GCSE/IGCSE levels.

Teaches: Python TMUA Maths Computer Science

Curriculum: IB A-Level GCSE IGCSE Admissions

## Qualifications

**Cambridge University:** BA Computer Science

**Oxbridge Admissions:** Qualified Online Tutor (TMUA/CTMUA, STEP and MAT)

**International Baccalaureate:** Qualified Online Tutor (Maths, Further Maths and Computer Science HL/SL)

**A-Level:** Qualified Online Tutor (Maths, Further Maths and Computer Science)

**GCSE/IGCSE:** Qualified Online Tutor (Maths, Further Maths and Computer Science)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I have significant experience in education, tutoring 60 mathematics students with an average rating of 4.8 stars.

I also guided A-Level computer science students and edited 40 personal statements for prestigious universities. My diverse background includes roles in seven education companies, covering tutoring, technology, media, and marketing.

Notably, a student I tutored weekly achieved outstanding academic results, securing 3 A\*s at A-level and a place in a highly competitive tech degree apprenticeship program.

## Tutoring Approach

My tuition approach is similar for all subjects – it always starts with understanding the student's needs! With admissions tutoring, this will involve understanding the student's interests, ambitions and experiences and for academic tutoring this will involve identifying the gap between what the student knows and what they'd like to learn.

I focus my teaching on the principle of breaking problems down into simpler steps and thoroughly understanding the methods which will lead you to success.

There's also a focus on making sessions enjoyable and intellectually stimulating to foster an environment in which students can flourish.
