

PGCE Qualified Teacher | Phd Immunology and Biology

Hello, I'm Owen. I hold a PGCE in Science from the UK and a Masters from Cambridge University. With over 50 private tuition sessions, I also have Qualified Teacher Status and 3 years of full-time teaching experience. I am an experienced, motivated and versatile Teacher of Biology with a robust background in academic research and clinical laboratory work. Demonstrated expertise in teaching a range of curricula, from KS3 Science, iGCSE to International Baccalaureate Diploma (IBDP) at prestigious independent boarding schools in the United Kingdom. Adept at providing academic, pastoral, and co-curricular support, with a particular focus on fostering independent research and enrichment programs.

Qualifications

International Baccalaureate: Qualified Online Teacher (Biology)

Cambridge University : PhD Biochemistry

A-Level: Qualified Online Teacher (Biology)

GCSE/IGCSE: Qualified Online Teacher (Biology)

Degree Qualifications: PGCE Secondary Science, MSc Medical Immunology, M.Phil Immunology and BSc Biomedical Science

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. They have extensive tutoring experience with a track record of success, helping students achieve their academic goals.

Tutoring Experience

Hello, I'm Owen, a dedicated educator with a solid foundation in science education. My journey includes earning a PGCE in Science from the UK and attaining a Masters from Cambridge University. With a passion for teaching, I've conducted over 50 private tuition sessions, honing my skills alongside acquiring Qualified Teacher Status and accumulating three years of full-time teaching experience.

My expertise extends to various levels and curricula, from KS3 Science to iGCSE and International Baccalaureate Diploma (IBDP), garnered through teaching stints at esteemed independent boarding schools in the UK. As a Biology teacher, I bring a wealth of knowledge and hands-on experience, having engaged in academic research and clinical laboratory work. My teaching approach emphasises fostering independent research and enrichment programs, ensuring students receive holistic support beyond the classroom.

In addition to my teaching roles, I've contributed to various educational institutions, including Wellington College and Hurstpier College in the UK. My academic journey includes serving as a doctoral researcher at the University of Cambridge, where I furthered my expertise in biology. Moreover, my experience as an IELTS Examination Invigilator and roles in biomedical science at Manchester University and the University of Cambridge have enriched my understanding of diverse educational environments and learning needs.

Tutoring Approach

As a Biology teacher, I am dedicated to crafting personalised learning experiences tailored to meet the unique needs of each student. Drawing upon my hands-on experience gained through academic research and clinical laboratory work, I strive to create an engaging and dynamic classroom environment. By fostering independent research initiatives and implementing enrichment programmes, I aim to provide holistic support that goes beyond traditional classroom instruction.

My diverse educational background, which includes teaching roles at prestigious institutions equips me with a rich understanding of various teaching methodologies and learning styles. This enables me to adapt my teaching approach to suit the individual needs and preferences of my students. Whether it's through interactive experiments, project-based learning, or in-depth discussions, I am committed to ensuring that each student receives the guidance and support they need to thrive academically and personally.
