A-Level: Qualified Online Teacher (Chemistry)

GCSE/IGCSE: Qualified Online Teacher (Chemistry)

Oxford University: Master of Chemistry, 1st Class Hons (2002)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I have been teaching Chemistry to A-Level for 18 years. I deliver enjoyable, fast paced lessons with an emphasis on students being actively involved in learning.

My students consistently achieve outstanding results and in recent years have achieved places at top universities including Oxford, Cambridge and Imperial College, gained places on prestigious courses including medicine, dentistry, engineering and chemistry.

I am skilled in teaching students individually or in groups and am equally confident delivering tutorials in person or online. I am particularly expert in delivering the A-level course, but also tutor IB Chemistry to Higher Level, as well as GCSE.

I am experienced in working with students from all over the world, including those for whom English is not their first language. I enjoy helping my most able students prepare for Olympiad competitions and technical university interviews.

Tutoring Approach

As a Chemistry tutor, I take a twofold approach, helping students develop a really deep understanding of chemical concepts, whilst also developing their study skills so they can continue making excellent progress between tutorials.

I have outstanding academic credentials myself, and use my deep subject knowledge to help students develop a first principles understanding of as many concepts as possible.

I am also skilled in explaining complex phenomena in a simple way.

I set regular work and teach my students to review and analyse their answers so as to learn from any mistakes. My students really value the quality of resources I provide them with to support their learning.

Testimonials

"Jenny has been a great and enthusiastic tutor over the last two years. I have enjoyed Chemistry so much. She pushed me to my limit and I fully understand why and will always be appreciative of what she did for me"

A-level student ★★★★★

"Thanks to Jenny's help, I've made continuous progress in Chemistry, and the way she teaches always makes me understand everything. I really appreciate all the patience and time she spent on me. I feel so lucky that she was my Chemistry teacher"

A-Level student ★★★★★

"Jenny has given our daughter such enthusiasm for Chemistry, which made choosing to study it as a degree subject very easy indeed! She thoroughly enjoys her lessons and I even dare say the homework, which certainly builds confidence. Also, we know how much she has helped with her personal statement and her Oxford application – she couldn't have been helped more"
