

 King Abdulaziz University: Master's Degree in Bioinformatics

Fueling curiosity through knowledge is my life's mantra. I'm a research-driven IB Biology tutor based in Jeddah. Beyond Biology, I bring my expertise to teaching Business Management, Python, Statistics, Maths, TOK, and Chemistry at various levels - IB, A-level, and IGCSE. I leverage my research background to make learning a captivating experience for my students.

### Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

### Tutoring Experience

Six years ago, my tutoring journey commenced with a passion for knowledge and research sharing. Initially, I tutored peers in Biology during my undergraduate years, sparking my love for teaching. Now a professional tutor, I excel in Python, Statistics, Biology, Maths, TOK, Business Management, and Chemistry. My experience spans IB, A-level, and IGCSE levels, engaging with diverse students worldwide through online platforms while primarily tutoring in Jeddah. Each student's perspective enriches my teaching journey.

### Tutoring Approach

Believing in the power of an experiential learning approach, I incorporate my research experience into my teaching. I create a safe space for my students to question, explore, and discover. I introduce them to real-world problems, encouraging them to seek solutions through the lens of their subjects.

I consider learning as a journey we undertake together, wherein we unravel complex topics, dissect intricate problems, and celebrate victories. My aim is to foster a growth mindset in my students and inspire them to leverage their knowledge beyond textbooks.
