🎓 Cambridge University - BA Human, Social, and Political Sciences

I am a recent graduate from the University of Cambridge and am embarking on a Masters in Philosophy and Contemporary Critical Theory. My academic pursuits have given me a strong foundation in political philosophy, political science, and sociology. Beyond these fields, I have a keen interest in technology, architecture, photography, and cinema, which enrich my perspective and understanding in various interdisciplinary contexts.

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I have experience guiding for entry to the University of Cambridge. I really enjoy the process of helping students achieve admissions and interviews. I have also assisted with the formulation of many successful University applicants Personal Statements.

Tutoring Approach

My approach for all subjects tutored (Philosophy, Politics, and Sociology) will be largely the same: I will focus on developing essay structure and writing style, expertise in the course content, and a capacity to think innovatively and laterally around the given and related topics.

As for University Applications, guidance on personal statements, admissions tests, further readings, and general content discussion and interview prep will be central.
