

Master of Science: MSc Maths, Bachelor of Education: Specialized in Maths Curriculum

I hail from Rotterdam, where I've been dedicated to shaping young minds in IB Maths for over a decade. My teaching is rooted in traditional methods, drawing from the depth of knowledge I've accumulated. My passion lies in simplifying complex ideas and instilling confidence in every student I engage with.

Teaches: **Maths**

Curriculum: **IB**

Qualifications

Master of Science: MSc Maths - Distinction (2016),
 Bachelor of Education: Specialized in Maths Curriculum (2013)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I have spent 11 enlightening years tutoring IB Maths to students globally. The majority of my students hail from diverse international backgrounds, including those from Rotterdam's premier international schools. I have proudly seen many of them transition to top-ranked universities worldwide. My familiarity with both HL and SL intricacies allows me to cater to a range of students, from those struggling with basic concepts to those aiming for the highest grades. I regularly attend IB training to stay updated, ensuring my students receive the best.

Tutoring Approach

Upon first meeting my students, I share my journey, inviting them to do the same. I genuinely care about their aspirations, not just academically, but in life. I emphasize the importance of understanding over rote learning, fostering an environment where questions are welcomed. While I rely on tried-and-true teaching methods, I also incorporate modern resources to make sessions interactive. We use real-world applications of Maths concepts, ensuring that the knowledge sticks. I consistently review their textbooks to remain aligned with their school's curriculum, and together, we set realistic yet challenging goals to keep the learning journey focused and motivating. My approach is flexible, adapting to each student's unique pace and style of learning.
