Hire a tutor

IBDP Qualified Teacher | MSc Nutritional Biology

I have served as a teacher for numerous years and have consistently endeavoured to provide students with one-on-one support. Such personalised attention can truly be pivotal in enabling a student to achieve the grades of which they are genuinely capable. As a tutor, you possess the privilege of offering students precisely what they require to aid them on their educational journey.

Teaches: **Biology**

Curriculum: **IB**

Qualifications

International Baccalaureate: Qualified Online Teacher (Biology Higher/Standard Level)

Degree Qualifications: MSc Masters in Nutritional Biology/Lead Biology Teacher (12+ Year Experience)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I have 12+ years of teaching and tutoring experience.

I have taught in a leading IB world school, and I have tutored many IB Biology students in both higher and standard classes across the globe. I have run IB Biology summer programs, pre-exam intensives and tutored students through from 9th grade to completing their IB Biology course.

I have been an IB examiner for many years and fully understand the importance of putting your knowledge to the test with IB questions, marks schemes and examiner reports to help guide you in the process to success.

All my lessons are fully tailored to on line screen sharing with dynamic, fun and interactive virtual resources.

Tutoring Approach

I am always searching for the perfect resources to make this fun and engaging.

I use a range of virtual reality videos of concepts and labs as well as engaging and clear animations to help explain the key biological concepts.

We can work through these at our own pace and annotate and explain as we go. I always work with each student's own personal learning style to make the material easy to understand.

I have a surplus of IB questions for us to work through so you can learn the tricks of the IB exams.

Testimonials

"Lisa was a great tutor and I always genuinely looked forward to our lessons. Lisa always explained things so simply and in a way that was so easy to understand - it made Biology fun and I learned so much more with her than with my lecturers at school. It was a blessing to have been matched with Lisa as a tutor!"

Jack, previous student ★★★★★

"I would really recommend using Lisa for any tutoring needs. Although I am very happy to have put my Biology IB in the past, I wouldn't have passed the exam without her, and if I remember any information about the mitochondria it's because of her!"
