

University of Sharjah: BSc in Chemistry

I am a passionate and experienced IB and IGCSE Chemistry tutor from the UAE. I have always had a deep fascination for the world of atoms and molecules, and I love sharing my knowledge with students. With a friendly and patient approach, I aim to make complex chemical concepts accessible and enjoyable. My goal is to inspire a love for chemistry and help students achieve their academic goals. Let's embark on this exciting learning journey together!

Teaches: Chemistry

Curriculum: GCSE IGCSE IB

Qualifications

University of Sharjah: BSc in Chemistry (2011-2015)

IB: 41 points. HL Chemistry, Biology, Mathematics; SL English Language and Literature, Arabic Language and Literature, Physics. A – Chemistry EE. A – Theory of Knowledge

IGCSE: Chemistry (A*), Biology (A*), Mathematics (A*), English Language (A*), Physics (A*), Arabic Language (A*), ICT (A*), Geography (A*), Business Studies (A*), History (A*)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I have been tutoring IB and IGCSE Chemistry for over 8 years, accumulating more than 500 hours of teaching experience. I have worked with a diverse range of students, both one-on-one and in small groups. Through personalized instruction, I have helped students grasp challenging topics, develop problem-solving skills, and enhance their understanding of key concepts.

My students have achieved excellent results, with many improving their grades by two or more levels. Building a strong rapport with my students and fostering a supportive learning environment is central to my tutoring approach.

Tutoring Approach

My tutoring approach revolves around tailoring lessons to each student's individual needs and learning style. I believe in a hands-on approach, incorporating interactive activities and practical experiments to deepen understanding. I provide comprehensive explanations, offer real-life examples, and simplify complex concepts to ensure clarity.

To strengthen problem-solving skills, I engage students in solving a variety of chemistry questions and guide them through the process step by step. Regular assessments and feedback enable me to track progress and address any areas that require additional focus. Together, we will build a solid foundation in chemistry and cultivate a lifelong passion for the subject.
