🎓 University of Manchester: Master's in Biomedical Science

I'm Zaire, an IB Biology tutor with an international outlook, having completed my studies in the UK before returning to my homeland. I carry with me a Master's degree in Biomedical Science from the University of Manchester. By merging my comprehensive knowledge with practical research experiences, I aim to make biology more relatable and fascinating for my students.

Teaches: Biology

Curriculum: IB

Qualifications

University of Manchester: Master's in Biomedical Science

Certified IB Biology: Participated in ground-breaking research in genetics, contributing to several peer-reviewed scientific publications

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For over four years, I have had the pleasure of mentoring IB students, helping them grasp complex biological concepts with ease. I have a track record of enhancing my students' academic performance and fostering their interest in the subject matter. Additionally, I provide valuable guidance to students looking to study biology at university level, assisting them in their application process and entrance exams.

Tutoring Approach

My tutoring approach is defined by curiosity, creativity, and empathy. I go beyond the syllabus to link the theories to practical applications and current research trends, making learning more relevant and engaging. I adopt a student-centered teaching style, adjusting my methods based on each student's learning pace and style. I encourage active learning, promoting thoughtful discussions and critical thinking exercises to stimulate my students' minds. To me, success is not only about scoring high grades, but also about developing a lifelong love and understanding for biology.
