 **University of Toronto: BSc Maths with Honors**

Hailing from Toronto, I secured the top rank in my Maths class at the University of Toronto. With a teaching journey spanning over eight years, I'm dedicated to assisting IB students in realizing their aspirations. I'm passionate about breaking down intricate mathematical ideas into relatable understanding.

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last eight years, I've had the privilege to tutor countless IB students from various backgrounds. Many have achieved scores well beyond their initial expectations. Aside from preparing students for their exams, I've guided them in Internal Assessments and Extended Essays. I have had collaborations with several IB schools in Toronto, providing workshops and revision classes. My commitment to excellence and traditional teaching methodology has earned me recognition among my peers and students alike.

Tutoring Approach

Traditional, but dynamic. I firmly believe that a solid foundation is vital. I tend to start with fundamental concepts, ensuring my students grasp them before moving to more complex topics. To me, Maths isn't about rote memorization, but about understanding and application. Hence, I incorporate real-world problems and scenarios, making the learning experience both engaging and pragmatic. My sessions are interactive; I encourage questions and discussions. I aim to foster an environment where my students think critically and independently.
