University of Oxford: MSc in Mathematical and Theoretical Physics

Nanyang Technological University: BSc in Physics

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over 9 years of tutoring, I've guided numerous IB students in Singapore and abroad. My time studying overseas has given me the advantage of understanding the international education system. From helming intense revision classes before exams to long-term academic guidance, my approach is comprehensive. Moreover, being familiar with the IB's rigorous demands, I've developed tailored programs to help students navigate the curriculum's challenges. My experience includes working with students from diverse backgrounds, ensuring a multicultural and adaptable teaching method.

Tutoring Approach

I believe every student has their unique style of learning. Fusing traditional techniques with modern tools, I use interactive simulations and real-world applications to make complex concepts relatable. By focusing on understanding over rote memorization, I help students build a robust foundation that serves them well in exams and life.
